SCHEDULED WINTER NATURAL GAS FILING APPROVED FOR LACLEDE GAS COMPANY

Jefferson City (November 19, 2001)---Natural gas customers of Laclede Gas Company will see **lower natural gas rates** under a scheduled winter season filing approved by the Missouri Public Service Commission. This decrease, which primarily reflects a reduction in the wholesale cost of natural gas, takes effect November 19, 2001. The winter season filing covers the period of November through March.

A residential customer currently pays \$0.67739 per Ccf (100 cubic feet of gas). Under this filing, the rate will drop to \$0.41250 per Ccf, a decrease of approximately 26.5 cents per Ccf. **The effect on a typical residential heating customer for the winter season is a decrease of \$235 or 30 percent when compared to rates currently in effect.**

Approximately 60% to 70% of a customer's natural gas bill reflects the cost of natural gas from wholesale suppliers. The wholesale cost of natural gas (the cost your local natural gas company must pay to its supplier for natural gas) is not regulated by the Missouri Public Service Commission. The wellhead cost of natural gas is unregulated and is primarily driven by supply and demand. The Missouri Public Service Commission does have regulatory review authority to ensure that regulated gas companies make prudent decisions in securing natural gas supplies for their customers.

This rate decrease will affect approximately 632,600 Laclede Gas Company natural gas customers in the City of St. Louis as well as the Missouri counties of St. Louis, St. Charles, Butler, Iron, Franklin, Jefferson, Madison, St. Francois and Ste. Genevieve.
